Subject: Site selection call

Hi Chris and John,

I got your (Chris') message from late yesterday afternoon and understand your internal meeting to vet proposed sites has been postponed until at least Friday, December 21st. I will be out of the office from the 21st until January 7th. Feel free to send me an email or leave a voice mail to update the situation, or to give a call to the other EPA team members.

I also spoke with Jeanne Briskin this morning and confirmed again that New York is definitely NOT a possibility. I think Bob Sussman may have conveyed that to Paul Hagemeyer, but regardless, it is definitely out of consideration. Also, it appears recent events have put the eastern prospective case study back in play with our other partners, so we continue to wish to stay west of the Mississippi with this prospective site.

I am in a video conference essentially all day today and tomorrow, then out the rest of the year, so we'll talk when I return after New Year's. I hope both of you have a warm and merry Christmas and a Happy New Year.

Best regards,

Mike
